Chapter One

The keeper had not spoken to anyone in a week. The lamp room hums with a low mechanical note while the great lens turns, throwing its beam across black water and the long reef beyond, where the swell breaks white and slow. The lamp room hums with a low mechanical note while the great lens turns, throwing its beam across black water and the long reef beyond, where the swell breaks white and slow.

The lamp room hums with a low mechanical note while the great lens turns, throwing its beam across black water and the long reef beyond, where the swell breaks white and slow. The lamp room hums with a low mechanical note while the great lens turns, throwing its beam across black water and the long reef beyond, where the swell breaks white and slow.

long reef beyond, where the swell breaks white and slow. The lamp room hums with a low mechanical note while the great lens turns, throwing its beam across black water and the long reef beyond, where the swell breaks white and slow.

The lamp room hums with a low mechanical note while the great lens turns, throwing its beam across black water and the long reef beyond, where the swell breaks white and slow. The lamp room hums with a low mechanical note while the great lens turns, throwing its beam across black water and the long reef beyond, where the swell breaks white and slow.

Chapter Two

Mara came at dawn with bread and news of the storm. The lamp room hums with a low mechanical note while the great lens turns, throwing its beam across black water and the long reef beyond, where the swell breaks white and slow.

The lamp room hums with a low mechanical note while the great lens turns, throwing its beam across black water and the long reef beyond, where the swell breaks white and slow.
